Suppose a candidate should die between the November election and the date of the assembling of the electoral college?

The electors would probably receive instructions from a national convention or from recognized party leaders. In 1872, when Greeley, the minority candidate, died after the election, his votes were scattered. Six Georgia electors, for instance, voted for B. Gratz Brown and three for Greeley. The Greeley votes were rejected by congress. Thomas A. Hendricks and Brown divided the votes that had

His great opportunity did not come until he was over 60. Then came distribution of the navy to be perilously out of date. He had watched the change from wooden walls to iron citadels packed with tremendous and exquisite machinery. Yet there had been no fundamental change since Nelson's time in our method of training officers for their profession. There had been a revolution in our political relations. and it was clear that the struggle of life and death in the future would be fought in the North sea and no other where. Yet our fleets were still organized as though the Mediterranean would be, as in the eighteenth century, the chief scene of crisis. Our ships were stationed anywhere but where we would probably have to John Fisher clearly stated his intentions They were approved. He came into the admiralty to carry them out. But he was commissioned from the outset to effect them. That is what he was there for. as an incarnated torpedo waiting for its war head to be fixed on it.

"And what has he done? At Osborne he is training the officers of the future to handle the grim machines which have superseded forever the old vision of masts and sails. He vastly increased efficiency while reducing expense. He struck out of the estimates every penny which did not yield real the fighting value. He most mercilessly scrapped scores of weak vessels that could neither attack nor run. He transferred the men to real fighting ships. He created with the inspiration of nothing less than gentus the system of nucleus crews, by which every ship in the reserve can be mobilized for war in a few hours. Above all, he swung

HUMAN THINKING MACHINE Knew Everything, but Died a Slave

to Profound Wisdom. (Chicago Cor. St. Louis Post-Dispatch.) Physicians today decided to present the brain of Professor Joseph W. Krewer, a suicide, to the American Medical society as a type of the man of 2008-the human hinking machine.

The decision was reached following a clinic in which leading medical men of Cook county participated. They got to study the brain of the man, which higher lucation had developed at the expense of his heart.

They conceded that Professor Krewer's brain was a marvelous mechani triumphant product of years of study and Quietly he massed our strength in the narrow seas until, in Admiral Mahan's that as his mind expanded his heart words, "Eighty-six per cent of the shrank and his soul shriveled until he atculture in the great universities of Eu tained the stage of an omniscient character-loveless, feelingless, expressionless, fearless-and useless. A SPORTING PARSON.

(Dundee Advertiser.) In a seaside parish in the early part of the last century there lived a spor parson. The place was a favorite land place for woodcock at the time of their Black Tom of Sothill."

Sunday he was preaching to his congregation, and had just commenced the sec ond head of his discourse, when the ond head of his discourse, when the church door was cautiously opened and a head appeared, followed by a beckening finger. The parson either did not see, or would not heed, the intruder, so the latter then gave a loud cough. The preacher stopped his preaching in the middle of a sentence, and excitedly asked, "What is it, John?" "Cocks is coom." replied John. The parson hurriedly closed his sermon case. "Shut the door and lock sermon case. "Shut the door and lock he cried to the clerk; "keep the peo ple in church till I've got my surplice off. Let's all have a fair chance."
